

SADEE MOHAMMAD SHADMAN

613-808-7969 | shadmansadee@gmail.com | [LinkedIn](#) | (Willing to Relocate)

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, C++, SQL, PHP

Frameworks & Technologies: React, Next.js, React Native, Node.js, Express.js, FastAPI, Tailwind CSS, OpenGL, Firebase

Databases & APIs: MongoDB, PostgreSQL, MySQL, Redis, REST APIs, Swagger/OpenAPI, OAuth 2.0, Google Maps API

Tools & Platforms: Git, Docker, GitHub Actions, Linux/WSL, Jest, Vitest, Pytest, ESLint, Prettier, SonarQube, Figma, CMake, AndroidStudio, Unity, Cloudinary

EDUCATION

BEng in Software Engineering

April 2026

Concordia University, Montreal, QC

Core Courses: Object Oriented Programming I & II | Software Processes and Practices | Software Requirements and Deployment | Software Architecture and Design | Information Systems Security | Software Testing, Verification and Quality Assurance | Data Systems | Operating Systems | Data Structures and Algorithms | Management, Measurement and Quality Control

Electives: Computer Graphics | Advanced Programming with C++ | Introduction to Game Development

Volunteering: ConUHacks X - The largest hackathon in Quebec welcoming over 1000 participants and 30 sponsors

EXPERIENCE

Web App Developer

September 2025 - April 2026

Constein Group

Ottawa, ON

- Developed a website for Constein Group - a property management/home inspection startup based in Ottawa.
- Agile project showcasing services, authentication, automated communication system with clients and automated home inspection reporting process in Ontario.
- Using Next.js, React, TypeScript, Tailwind, code quality + CI: Prettier, ESLint, TypeScript checks, Jest tests/coverage, GitHub Actions, Puppeteer and Cloudinary.

Tutoring

February 2021 - June 2022

Self-Employed

Dhaka, Bangladesh

- Tutored O and A level students on Mathematics, Physics and Chemistry under the British Cambridge and Pearson Edexcel curriculums.

PROJECTS

1. [TrackMyDegree](#)

React, TypeScript (Vite) frontend, Node/Express, MongoDB/Mongoose backend, Redis, Python FastAPI utilities, Docker/Compose, Vitest/Jest/Pytest testing, ESLint/Prettier, Swagger, Sentry/PostHog, SonarQube.

- Developed a full-stack Acroform management system featuring a secure administrative dashboard
- Created an automated co-op sequence generator that dynamically maps program-specific JSON templates
- Built a system to autofill a PDF Acroform from prebuilt Timeline by a click to save students' time and prevent mistakes

2. [CUMapNav](#)

- Responsible for design diagrams, UI/UX design and design patterns identification and incorporation,
- Handled usability testing, documentation and app presentation.

3. [Flight Combat Simulator](#)

C++17 + OpenGL + GLFW + GLM + GLAD + stb_image + Assimp, built with CMake.

- Made a projectile based combat system in a flight-combat simulator that renders a 3D city and delivers physics-based aircraft controls, combat, and real-time lighting/shadow mapping.

4. Wellora

- Posted a Case Study on [Medium](#) on the UI/UX design of a health companion app covering initial user survey, requirements analysis, persona design, user journey mapping, wireframing & prototype design using Figma and usability testing plan.

CERTIFICATIONS

Game Creator's Odyssey - ACT I Rational Game
Ubisoft

(December 2025)
